HELP ASKED FOR FORMER OHIO COUNTY MAN

Bald Knob, Ark., Dec. 5 1922.
Editor Hartford Herald:

Dear Sir:—Wish you would put this article in your paper about Mr. C. A. Keen, who lives near me and

has two very sweet girls, one thirteen, the other fifteen, as he has some friends and connections and relatives around there somewhere. He is a school teacher, but the old plague, cancer, has almost got him. He is simply destitute; it keeps the girls busy taking care of him and reading to him. If anyone can find any of his friends or relatives, do so for they are in sore need. Some want to put him in the poor house, but he don't want to leave his children in his last days. That would be a shame, I think. The Masons have been helping him and we have been helping him for two years. His two fine girls anyone might be proud of. Mr. Keen has relatives, living somewhere in Ohio County. I hope by your help to succeed in getting some help for Mr. Keen.

Hoping to hear from you soon.
MRS. C. H. GRANT.

ATTORNEYS FOR DARK POOL SELECTED

Abe D. Waldauer, assistant to Aaron Sapiro, marketing expert, today announced that local counsel had been appointed in nine of the ten warehouse districts. The attorneys were selected by Mr. Waldauer after conferences with various officials of the Dark Tobacco Growers' Co-operative Association. The appointments follow:

Hopkinsville District; McKinzie and Smith; Henderson District, Yeaman and Yeaman; Bowling Green District, John F. Rhodes; Clarksville District, A. R. Gholson; Paducah District, Bradshaw and McDonald; Owensboro District, T. F. Burkhead; Murray District, Coleman and Lancaster; Gallatin District, W. W. Pardue.

These attorneys will assist in forming the subsidiary warehouse corporations and will handle all local legal business of the Association. Mr. Waldauer has received acceptances from all of the men named.

GRADING DEMONSTRATIONS

Joseph Passonneau, manager of the Field Service Division of the Dark Tobacco Growers' Co-operative Association, has announced that a series of stripping and grading demonstrations will be held at various points in the district. Expert tobacco men will be in charge of the exhibitions and all questions about the manner of preparation of co-operative tobacco for the warehouses will be answered.

Whenever possible the demonstrations will be held in public buildings where a large number of farmers may congregate. Tobacco barns and other farm buildings will be used in sections where larger houses are not available.

All members of the Association are urged to attend one or more of these meetings in order that they may learn how to put their tobacco in good order and in the best condition for the receiving stations. It is pointed out that one of the chief benefits of the marketing pool will be the advantageous selling resulting from proper grading. If every grower does his part the graders will be able to do their work more efficiently.

HARTFORD HIGH DEFEATS CANEVILLE

The Hartford High School basketball team tied up with the like aggregation from the Caneyville High School Friday night on the local floor, before a good-sized crowd of fans. The game was a good, clean, hard-fought one, resulting in the victory of the home boys to the tune of 27 to 18. Rah! rah! rah! we are off on another championship sprint.

CHRISTMAS IN THE AIR

By MARY G. BONNER

THE air was keen and cold and invigorating. The snow was falling gently. In every house Christmas presents were being wrapped, cheery messages and cards and letters were being sent. Almost forgotten friends were thought of and remembered by a card, a wish, a small gift.

For Christmas was in the air!

NEW YEAR CALLS PASSE

The American custom of New Year day calls, so prevalent in the social life of this country in the Nineteenth century, is little practiced today.

Protect Your Battery!

FOR YOUR INFORMATION:

If your Battery is not fully charged it will freeze.

If you do not use your car regularly, your battery will soon go down.

If a battery is not being used, it should be charged once a month, for it damages if allowed to stay partly discharged.

A battery will last indefinitely and give good service if properly cared for.

Keep the battery clean; don't let mud and water collect on top of the cells; wash it with baking soda and water. This will also remove the green corrosion that accumulates around the posts.

Keep the hold-down clamps tight; don't allow the battery to shake or bounce around in the bracket, as this will break the sealing compound and the hard rubber jars.

Don't allow the small vent holes in the filler plugs to become stopped up, for the gas that forms in the battery must have an outlet.

We inspect your battery and fill it with water free of charge.

We will keep your battery in a warm room for you this winter, and charge it once a month. For this we charge One Dollar per month.

Come in and see us.
